NOTABLE CAREER OF WESTERLY MAN

Rear Admiral Dunn Has Had Twenty Years of Sea Service and Over Nineteen Years of Shore Duty—Wannamoisset Golf Course Record Broken by Dr. Tetlow of Westerly With Score of 34 for Nine Holes—Daily Happenings Chronicled.

Herbert Omar Dunn, who was promoted to rear admiral, Saturday, by the retirement of Rear Admiral Badger, was appointed to the naval academy by the late Congressman James M. Pendleton, and has had over 20 years of sea service in various parts of the world, and over 19 years of shore duty. He was born in Westerly, May 29, 1867, and has always remained Westerly as his legal residence. He entered the United States naval academy as a cadet midshipman, June 9, 1887, graduated midshipman in 1890, and the year of his graduation, he was at sea aboard the famous old Hartford on the South Atlantic station. He was assigned to the USS Minnesota and after being promoted ensign in March, 1891, he spent six months in the Philippines, studying the language. He served on the Iroquois in the North and South Pacific, on the Essex and Palos at the China station and also on the Junia. He returned home in the Palos in 1898 by way of Africa, holding the position of executive officer, navigator and acting chief engineer.

He served as assistant chief of the bureau of equipment and recruiting at the Torpedo school, and in the Baltimore, 1899, was in charge of the branch hydrographic office, and then in the Lancaster on the South Atlantic station. Among subsequent duties he served during the war with Spain in the battleship USS Oregon, in the engagement with the San Juan forts. The monitor was also in the first expedition to the Philippines, in the engagement with the Cervera's fleet, and that vessel also accompanied General Nelson A. Miles in the second expedition to the island.

In 1900, Captain Dunn was assigned to the training ship Buffalo, as navigator. During the Boxer trouble in China the Buffalo was used to take reinforcements to Taku. He was commander of the battleship USS Idaho, when she made the remarkable trip to the Mississippi river, was on special duty in the navy department and prepared a bill in regard to the navy personnel, was naval supervisor of New York harbor, and his last assignment was in command of the United States ship Wyoming. He is the inventor of the rear admiral, promotes Commanders B. F. Hutchison and T. P. Magruder to captains, Lieutenant Commander T. P. Ware, Jr., junior grade, to lieutenant.

The record of the Wannamoisset golf course for nine holes has been broken by Dr. C. H. Tetlow, of Westerly, with a score of 34 in a friendly match played with J. A. Gannon, L. B. Murdock and C. Z. Eddy. About two months ago two of the greens of the course were pushed considerably forward, due to the additional nine holes being built on the course, making it possible to make the present hole in less than the old hole. The green of the first hole has been moved fifty yards forward, while the green of the ninth has been changed so that the hole is shorter by 100 yards.

Dr. Tetlow and George M. Gordon, the professionals of the club, have done the old holes in 35 on several occasions, but the 34 of Dr. Tetlow is the lowest for the altered course. His card is as follows: 4, 4, 3, 4, 3, 5, 3, 4, 4—34.

Dr. Tetlow is the holder of the amateur record of the course for 18 holes with 72 strokes. The professional record is held by Harry Vardon, the English crack who neologized the 18 holes in October, 1915, with a 69.

How the Anti-British Tariff Works.
Canada imported goods from the United States last year to a value of \$433,334,000, an increase of \$21,000,000 over the preceding year. But Canada imported goods from Great Britain last year to a value of only \$58,196,000, which was a decrease of over \$40,000,000 as compared with the preceding year. In other words, under the administration of the ultra-loyal and "no truck nor trade with the Yanks" party our import trade has substantially increased with the United States and enormously decreased with Great Britain. Turning to our export trade the same tendency is seen. For the first time in a quarter of a century our exports to the United States and to Britain are about equal. During the past year, while we were increasing our exports to Great Britain by \$1,000,000, we increased our exports to the United States by more than \$20,000,000.—Regina Leader.
